WELCOME SPEECH

Dear Friends and Colleagues

It is a great honor and special pleasure for me, as the president of Asia college of neuropsychopharmacology, to welcome you to Yogyakarta for the 1st AsCNP for ASEAN International Congress of Neuropsychopharmacology 2019 which will be held in Royal Ambarukmo Hotel, Yogyakarta - Indonesia, from February 28th – March 2nd 2019. For the first time the AsCNP organized congress between the biannual congress for ASEAN region. Our purpose is to improve the awareness and foster the level of knowledge of the colleague about neuropsychopharmacology especially in South East Asia. Yogyakarta is believed to be an excellent setting to focus on discussion under the theme: "Breakthrough in Neuropsychopharmacology intervention, from ASEAN to global perspective".

Today, neuropsychopharmacology, either in basic or clinical setting, is one of the most advance field in psychiatry. The development of clinical research and novel drugs, the current progress in molecular biology and modern neuroscience, the new nomenclature and perspective of psychotropic drugs, and still we face the challenges and difficulties in our approach to psychiatry disorders and mental health care. Moreover, as we progress through the 21st century, the challenges of integrating comorbid physical, mental and social care, altogether with primary and secondary care, are truly important. We hope that AsCNP for ASEAN congress 2019 would be the ideal platform to exchange and to promote our innovative knowledge in this field.

Taking this wonderful opportunity, I encourage and invite you to experience the congress and take advantage to take part in all scientific programs that have been arranged. I believe with your support and participation, we will make this congress successful and remarkable.

More importantly, please make sure to spend more days to explore the beauty, miracle, culture, and hospitality of Yogyakarta. With open arms and warm regards, I look forward to seeing you in Yogyakarta, Indonesia, and interacting with you both socially and professionally.

Sincerely Yours,

Andi J. Tanra
President of AsCNP

Dear Colleagues,

We are delighted to announce that the Asian College of Neuropsychopharmacology (AsCNP) will be holding a South-east Asia international meeting, which will be held in Yogyakarta, Indonesia on February 28th - March 2nd 2019. The meeting will be entitled as the 1st AsCNP for ASEAN International Congress of Neuropsychopharmacology 2019. The theme of the congress is "Breakthrough in Neuropsychopharmacology intervention, from ASEAN to global perspective".

The congress will include a neuropsychopharmacology findings either in research or clinical apply. Within each session, including, plenaries, keynote lectures, workshops, symposia and poster/oral presentation sessions will address cutting edge topics. Several promising new technologies and findings are on the horizon

in biological psychiatry and neuropsychopharmacology. This congress will provide an ideal forum to exchange knowledge related to these innovations in order to advance the field.

In addition to the state of the art scientific meeting, Yogyakarta offers many wonderful tourist activities. All these experiences and many more are waiting for you in Yogyakarta, Indonesia.

So please visit Yogyakarta, Indonesia for all we promise will be an unforgettable experience. We encourage you to join the congress. We look forward to seeing you all in 2019!

Sonny T. Lisal
Chair of Local Organizing Committee
